

NationSat Channel Guide

Specific to Property Channel Line-up

Having an on-screen guide to show residents what's playing is a great way for you to keep everyone apprised of entertainment and information offerings. NationSat's channel guide is customized with your center's channel line up. NationSat Operations updates guides when programming changes occur and offers free support for the life of the system. With NationSat's channel guide, you can:

- Customize the look of your channel guide with background screens, colors, graphics, appearances, and even personal messages
- Provide continuous weather updates
- Show graphical network logo identifiers and program data for over 1600 satellite and local networks
- Adjust grid size, making it easier for residents to read on-screen programming information

Sample - Pro Series
