

Administrator, Nursing Facility

Skilled

It has been great working with NationSat. I love the fact that we can pick which stations we want and not have to settle for a “package” that costs more and includes stations that we don’t want. I also love some of the extra features like the in-house channel information and movie channels.

Cost savings have been significant. Customer service is also outstanding. NationSat not only responds to requests from our center, but also reaches out to us with opportunities to reduce costs and improve service.
